NEWSLETTER REQUESTS

The quality of our newsletter depends upon your direct participation in its publication. NMFWA members are anxious to hear about your opinions, experiences, successes, failures, etc. Please forward publishable articles to your newsletter representatives by 10 Aug 86 or directly to the editor by 20 Aug 86.

In an effort to reduce mailing costs, we propose to send fewer copies of the newsletter to installations with multiple Association members. Please advise us of the minimum number of copies to send and how they should be addressed. Even though you may not receive a personal newsletter, it does not imply you are not an Association member; our mailing and membership lists are separate. Please notify us of any address changes or corrections also.
